guvi

PROJECTS

Employee Management Application

Developed an Employee Management Application using Spring Boot with
comprehensive CRUD operations for efficient data management.

Patient Medicine and Appointment Application

Technologies Used

Java, Spring Boot, Spring Security, Thyme leaf, HTML, CSS, MySQL, MongoDB

Developed a comprehensive Patient Medicine and Appointment system using Spring
Boot, Thymeleaf, MySQL, Spring Security, and integrated testing with JUnit and
Mockito. Implemented CRUD operations to manage patient records and appointments
efficiently. Ensured application security using Spring Security and conducted thorough
testing with JUnit and Mockito for robust functionality and reliability.

Online Bus Ticket Booking Application

Technologies Used

Java, Spring Boot, Spring Security, Thyme leaf, HTML, CSS, MySQL, MongoDB
Developed and implemented an Online Bus Ticket Booking Application using Spring
Boot, Thymeleaf, and MySQL, incorporating CRUD operations for managing bus
schedules, bookings, and user profiles. Integrated Spring Security to provide secure
login functionality for both admins and users, ensuring data confidentiality and access
control. Conducted thorough testing using JUnit and Mockito to verify application
functionality, ensuring robustness and reliability under various scenarios.

SKILLS

Programming Languages:
- Bootstrap
- Core Java
- CSS
- HTML
- Java
- JavaScript
- Tools:

Databases:
- MongoDB
- MySQL

Version Control:
- Git
- GitHub

Tools:
- IntelliJ
- MongoDB Compass
- MySQL Workbench
- Vs Code

Testing:
- JUNIT
- Mockito

Soft Skills:
- Adaptability
- Communication
- Critical Thinking
- Problem-Solving Skills

EDUCATION

Mechanical Engineer
St. Joseph College Of
Engineering
